Stainless Steel Knife Gate

Model #60 - 2" to 48" - Metal Seat

Design Features

- All metal unidirectional seating
- Full 150 PSI working pressure
- Full port design with full raised face protects the seat face from flow insuring a longer seat life
- Solid one piece cast body with heavy duty integral jams, gate guide, and seat
- Blow out proof packing gland
- Bonnetless, outside screw and yoke, non-rising handwheel, rising stem
- Rugged cast steel handwheel
- Self-locking nylock nuts on handwheel and bonnet bolts
- Heavy precision machined beveled gate cuts through solids and slurries and cleans the seat as it closes
- Full lug pattern, drilled and tapped to suit 150# flanges

Designed and tested to conform with Tappi TIS 405-8 and MSS-SP81 standards. Flanges match ANSI B16.5

Designed and engineered for the pulp and paper, chemical, mining, and petroleum industries.

Stainless Steel Knife Gate

Model #61 - 2" to 48" - Resilient Seat

Design Features

- **Face plate retained resilient seat**
- **Drip tight shutoff in one direction**
- **Available with Viton, EPDM, Teflon or Polyurethane seats**
- **Easy replacement of seats**
- **Full 150 PSI working pressure**
- **Full port design with full raised face protects the seat face from flow insuring a longer seat life**
- **Solid one piece cast body with heavy duty integral jams and gate guides**
- **Blow out proof packing gland**
- **Bonnetless, outside screw and yoke, non-rising handwheel, rising stem**
- **Rugged cast steel handwheel**
- **Self-locking nylock nuts on handwheel and bonnet bolts**
- **Full lug pattern, drilled and tapped to suit 150# flanges**

Designed and tested to conform with Tappi TIS 405-8 and MSS-SP81 standards. Flanges match ANSI B16.5

Designed and engineered for the pulp and paper, chemical, mining, waste water, and petroleum industries.
